

# Fentrim® Grommets

CIRCULAR EPDM GASKETS WITH HIGH-PERFORMANCE ADHESIVE

## Flexible adhesive pipe gasket for air sealing and waterproofing round pipes and ducts

SIGA Fentrim grommets are the optimal solution for quickly and permanently sealing cables and pipes passing through your airbarrier. The robust, polyolefin (PO) carrier resists jobsite abrasions while remaining formable and pliable. The Fentrim grommet is a completely primer less solution for all substrates — including masonry.

- ✓ extremely high adhesive strength on every surface easy to apply, immediately 100% tight
- ✓ robust and flexible, reliable, no building damage
- ✓ tearproof, slit backing strip fast and tight application

# INSTALLATION INSTRUCTIONS

- Clean substrate before application
- Optional white talcum powder (included in the packaging) can be applied around the cable/pipes or interior of gasket to ensure the smooth sliding of the gaskets

- Pass cable/pipe through the pre-punched hole in the EPDM, and push the gasket flat onto the substrate, and align.

- Once the gasket is flat and correctly aligned, remove the first release liner

- Remove the second release liner and press the gasket firmly to the substrate.
